

unigroup university

Because of our commitment to blended learning techniques, we can turn a directive into a guided discovery. When United Van Lines and Mayflower Transit divisions asked us to help them train for improved customer experience, we turned it into an immersive, hands-on experience, the Unigroup University.

- Online, step-by-step video demonstration as well as real life role play
- Hundreds of multimedia elements for greater learning and retention
- Blended learning, designed for multiple learning styles
